Instalación de módulos

Modo desarrollador

- Damos clic en el ícono de configuración
- Damos clic en activar modo desarrollador y debe salir en la parte superior derecha una URL que nos indica que ya estamos en modo desarrollador.

Seleccionar y descargar apps

- Damos clic en el ícono de App
- Damos clic en el filtro, seleccionamos autor y quitamos el filtro de apps.
- Damos clic en vista lista y desplegamos BACKOFFICE S.A.S.

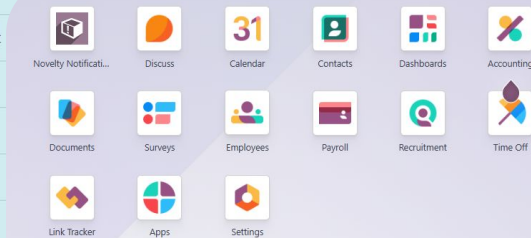

Seleccionar y descargar apps

→ Seleccionamos todos los módulos y damos clic en activate.

→ Lugo de ello ya podemos visualizar las apps instaladas.
